PENINSULAR PRONGHORN RECOVERY PROJECT (PPRP)

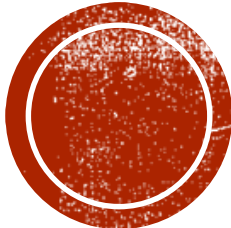

espacios naturales
y desarrollo sustentable

- Early **1990's** peninsular pronghorn numbered as few as **170** animals. All were located in the El Vizcaino Biosphere Reserve.
- PPRP established in **1997** by the Mexican Government in cooperation with ENDESU(Espacios Naturales y Desarrollo Sustentable)
- **1997-1998** a captive management facility was built within El Vizcaino

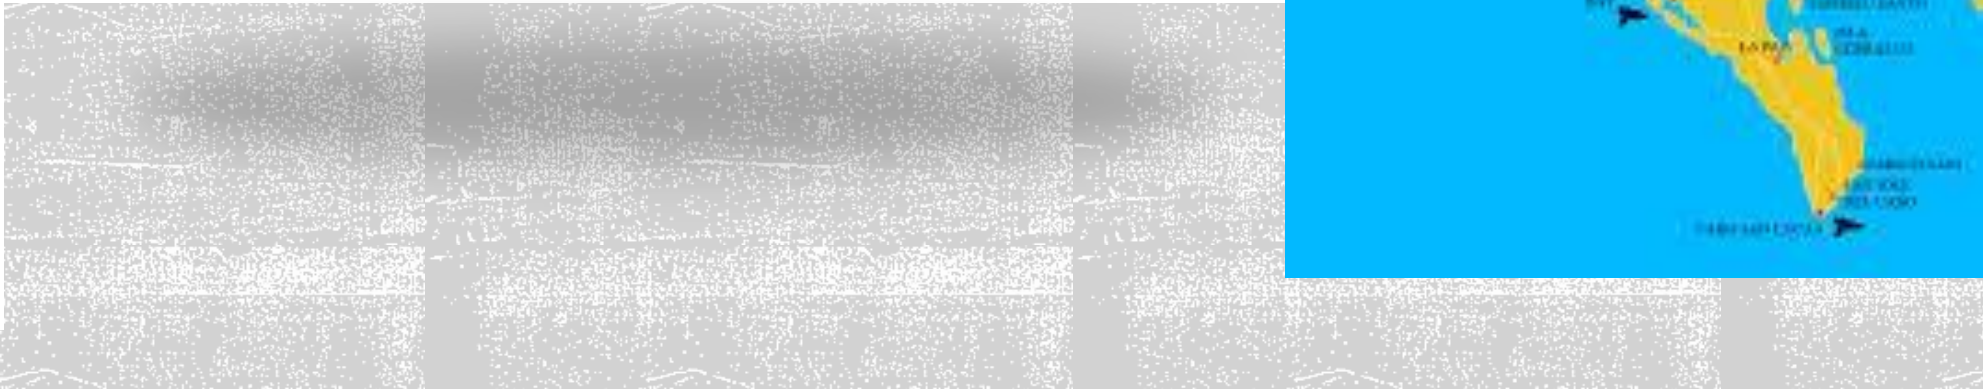

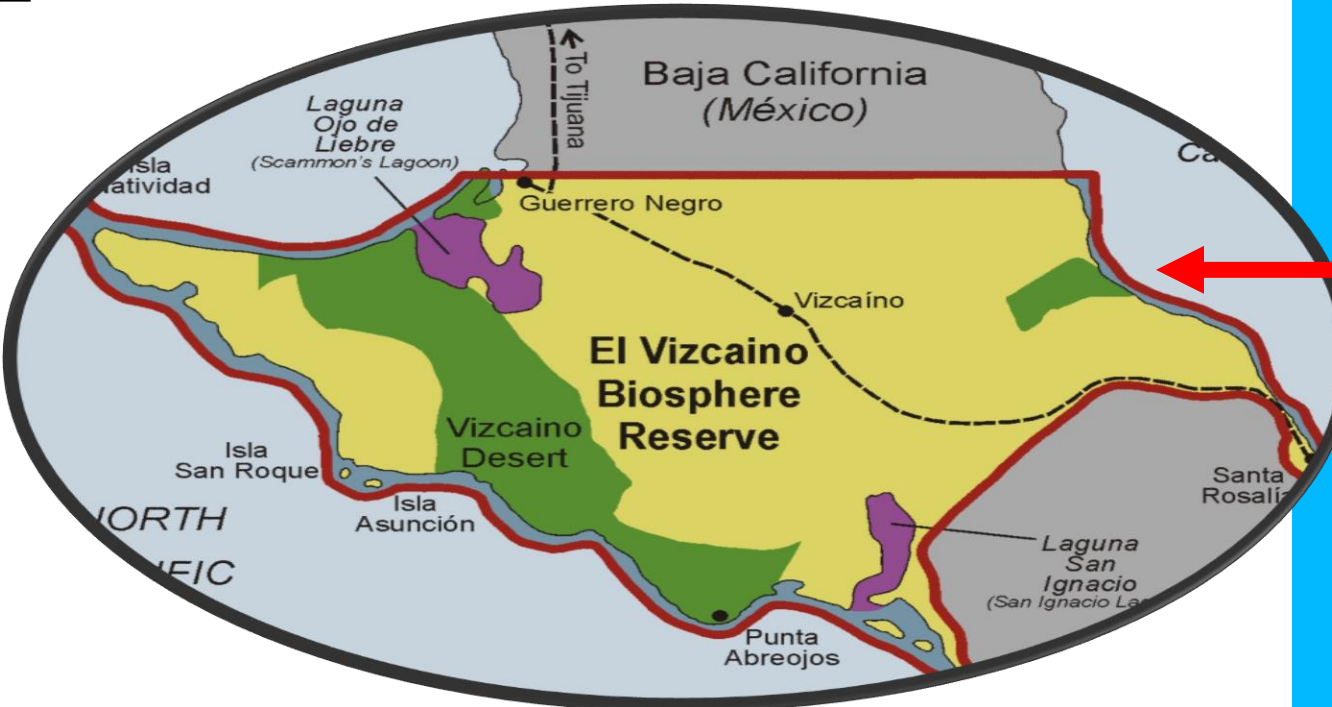

EL VIZCAINO BIOSPHERE RESERVE

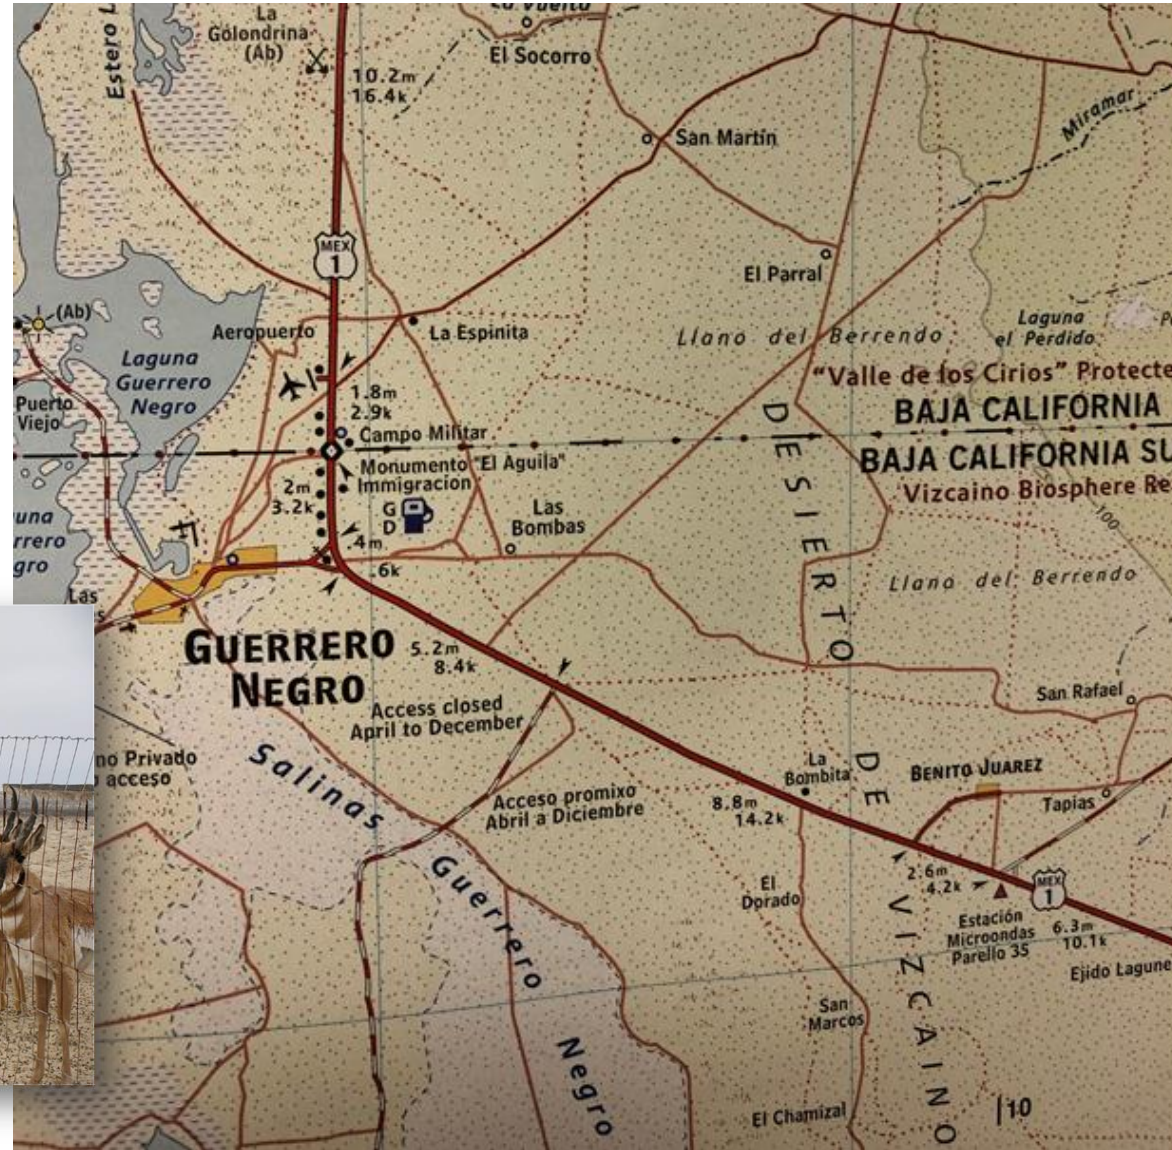

RESERVA DE LA BIOSFERA

La Choya

Ejido Juarez

VISITOR CENTER

(Valle de Los Cirios)

WHY SO FEW PRONGHORN IN BAJA?

- Livestock and Human Activities / Fencing
- Habitat Loss
- Habitat Quality Reduction
- High Fawn Mortality
- Predators
- Poaching

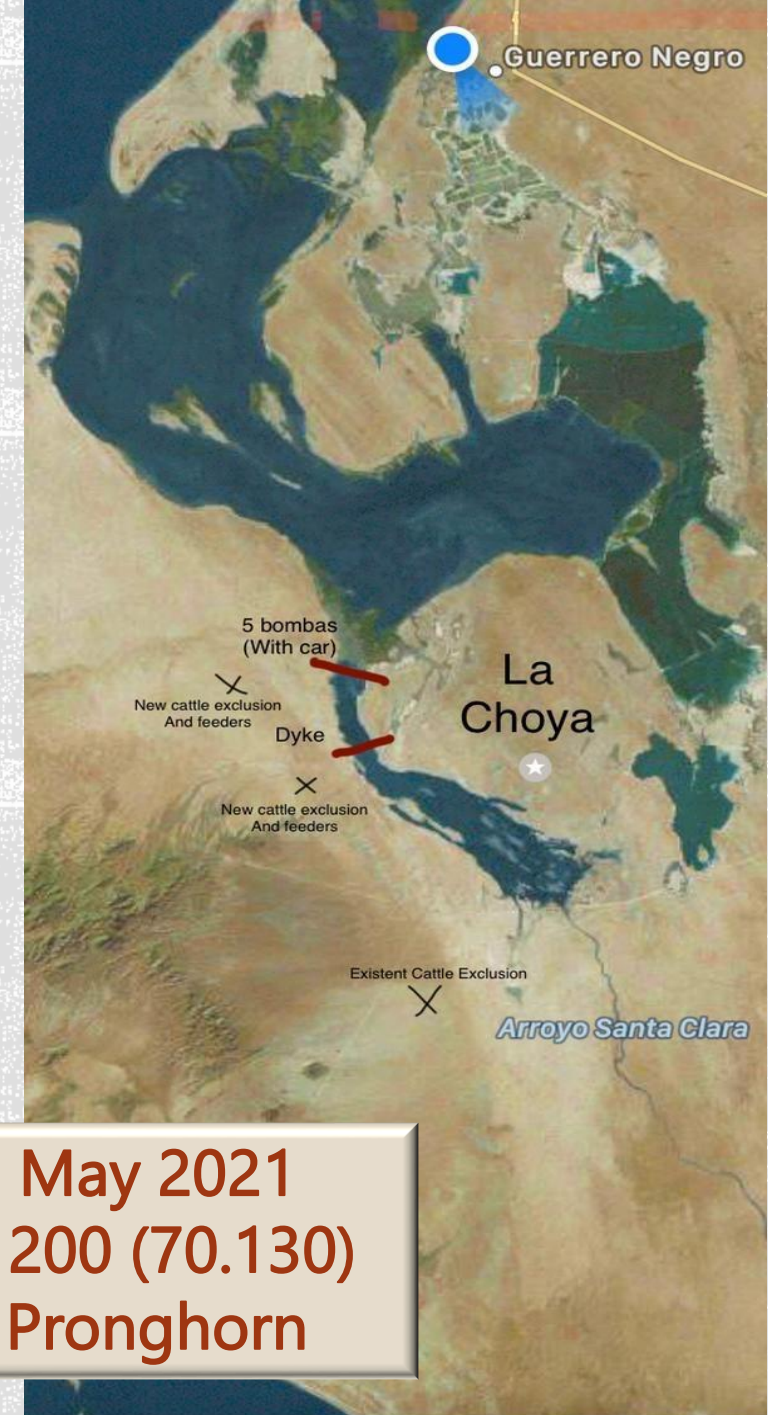

CURRENT STATUS IN BAJA:

+/- 50 Wild Peninsular Pronghorn
(5 surviving Fawns)

750 Pronghorn in Managed Populations
(80 Fawns born in 2021)

PRONGHORN REINTRODUCTION

Starting in May 2021
Reintroduce 200 (70.130)
Peninsular Pronghorn

GPS TRACKING AND MONITORING

IN NEED OF FUNDING FOR
COLLARS / SERVICE FEES!

(THE PROJECT CURRENTLY
HAS ONLY TWO COLLARS)

PENINSULAR PRONGHORN ZOO CONSORTIUM

EX-SITU POPULATION

- Imports Supported by PPRP
- Permits from Mexico not Timely or
